

# Feeder Parts and Instructions

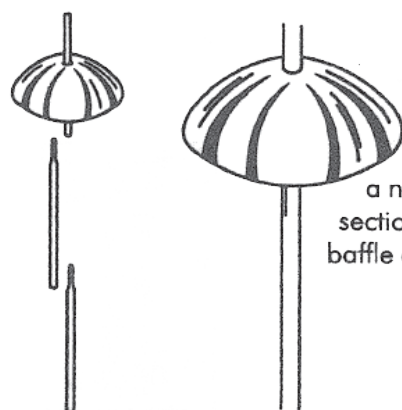

**K**feeders®

**Carousel Feeder**

**Super  
Carousel Feeder**

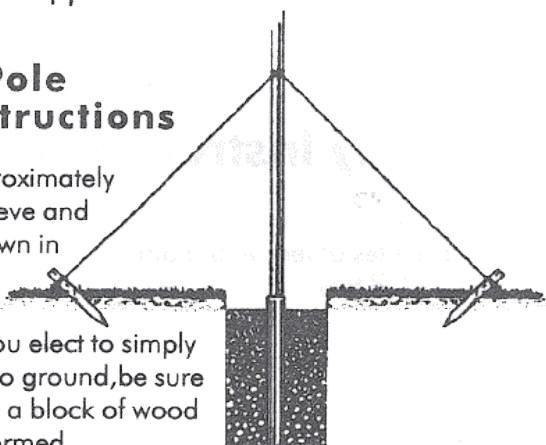

## Pole Assembly

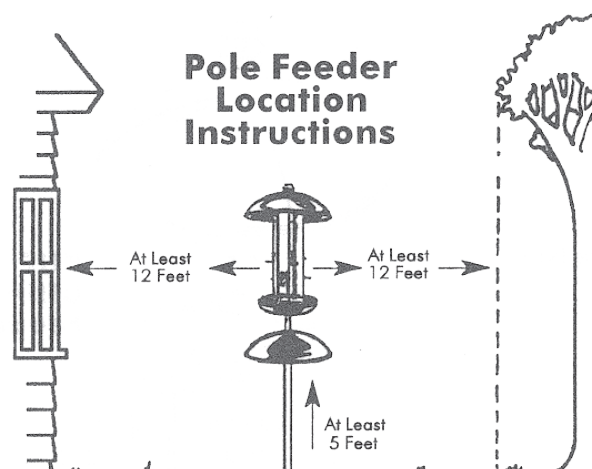

Install pole pieces together with narrowest end facing upwards. The piece without a narrow end should be the top section of the pole. Mount squirrel baffle on the top section as shown.

## Preferred Pole Ground Instructions

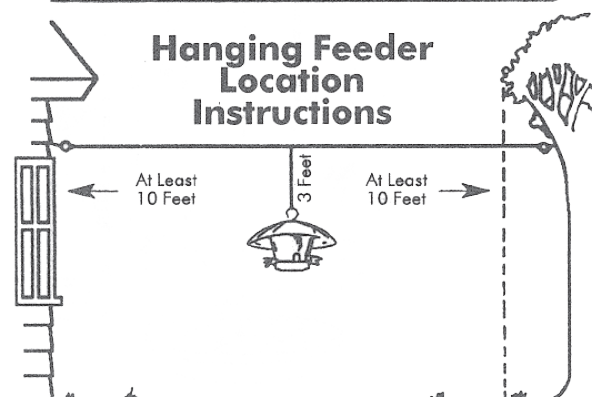

Excavate hole approximately 14" deep. Place sleeve and pole in hole as shown in sketch. Make sure pole is upright and fill with cement. If you elect to simply drive lower pole into ground, be sure to protect pole with a block of wood so that it is not deformed.

## Pole Feeder Location Instructions

## Hanging Feeder Location Instructions

**CAUTION:**  
Your feeder with seed will be heavy, support it adequately.
